The regime applicable to tuition fees at the University of Minho for courses of the 1st, 2nd, and 3rd Cycles, for the academic year 2022/2023, is as follows:

1. In the study cycles leading to the 1st Cycle Degree and in the cycles of integrated studies leading to the Master's Degree, tuition fees shall amount to €697,00 for national students and as set out in Annex 1 for international students, from the CPLP and other countries.
2. In the study cycles leading to the Master's Degree (2nd cycle) and the Doctorate Degree (3rd cycle), the tuition fees for national students and international students, from the CPLP and other countries shall be as set out in Annex 2.
3. The tuition fee to be paid by the student enrolled in part-time or by those who still need to complete up to a maximum of 30 ECTS for the completion of their Degree or 1st year subjects of an integrated Master's Degree, of Master's Degree (2nd cycle) or a Doctorate (3rd cycle), it is determined according to the following formula:
$$25\% \text{ of the tuition fee} \times \left(1 + 3 \times \frac{\text{no. of ECTS to complete}}{\text{ECTS of the curricular year in the study plan}} \right)$$
4. Tuition fees shall be paid in 10 instalments of equal amount to be paid up to the 10th day of each month, beginning in October 2022, through one of the payment modalities available on the Academic Portal, in the tab allocated to Payments. For courses beginning in the 2nd semester, payment shall begin in March 2023.
5. The student may choose to pay the total amount of the tuition fee in a single instalment, and must do so by October 10th, for courses beginning in the 1st semester, by March 10th, for courses beginning in the 2nd semester, and until the 10th day of the month in which the registration occurs, in the case of doctoral programmes with no doctoral programme or those beginning at different moments throughout the year.
6. SNAS scholarship students are given the possibility of beginning their payment one month after the deadlines set out in point 4.

7. Exception to points 4 and 5, are the fellows of the FCT (Foundation for Science and Technology), whose tuition fee is paid annually in a single instalment, according to the provisions in the Budget of both organizations.
8. In courses where there is a decrease in the tuition fees compared to those practised in 2021/2022, the amount set by this Order shall apply to those enrolled in 2021/2022 and who re-enrol in the same course in 2022/2023.
9. The tuition fees payable by the student who, for the purpose of concluding their dissertation, internship report, project work or thesis, re-enrols solely in the respective UC in the last year of an integrated study cycle leading to the Master's Degree, or re-enrols in a study cycle leading to the Master's Degree (2nd cycle) or the Doctorate Degree (3rd cycle), is proportional to the number of months elapsed until the submission of the respective dissertation, internship report or project work, in the case of the Master's Degree, or thesis, in the case of a Doctorate Degree, according to the corresponding number of quarters. The deadline for settlement of the instalments is on the last day of each quarter:

10. Whenever an enrolment after the regular deadline is authorised, and one or more instalments, as defined in the previous numbers, are already due, the date(s) of the instalment(s) due shall be postponed to the date of the instalment which is due immediately after the date of issue of the tuition invoice.
11. In the case of inter-institutional study cycles, it is the duty of the Rector to determine the tuition fees, together with those responsible for the partner institutions. Such fees shall be published in a separate order.
12. The payment of the tuition fee after the regular deadlines shall accrue interest on arrears, at the legal rate in force, and shall involve the non-recognition of any academic acts carried out in the period to which the obligation relates until such debt is settled.
13. The Academic Management Service Unit shall inform on where and how the payment should be made.
