

Universidade do Minho

**RT Order 35/2021**

Stipulation of tuition fees for  
2021/22

Considering:

- a) The provisions of article 16 of Law no. 37/2003, of 22 August, as it currently stands, which establishes the bases for higher education funding;
- b) The provisions of article 9 in conjunction with article 16, both of Decree-Law no. 36/2014, of 10 March, as amended by Decree-Law no. 62/2018, of 6 August;
- c) The provisions of articles 257 and 258 of Law no. 75-B/2020, of 31 December;
- d) The deliberation of the General Council no. 02/2021 of 22 February, which stipulates the tuition fees for the 2021/2022 academic year, under the terms of article 29, paragraph 2, subparagraph g) of the University of Minho Statutes, approved by Normative Order 13/2017, published in the *Official Gazette*, 2<sup>nd</sup> Series, of 21 September, 2017.

Under such terms, the rules applicable to fees at the University of Minho for 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> Cycle Degree Courses, for the 2021/2022 academic year, are as follows:

1. In the study cycles leading to the degree of Bachelor and in the integrated study cycles leading to the degree of Master, the tuition fees are set at €697 for national students and at the amounts listed in Annex 1 for international students, as well as students from the Community of Portuguese Language Countries (CPLP) and other countries.
2. In the study cycles leading to the degree of Master (2<sup>nd</sup> cycle) and to the degree of Doctor (3<sup>rd</sup> cycle), the tuition fees for national and international students, as well students from the CPLP and other countries are set at the amounts listed in Annex 2.
3. The amount of tuition to be paid by students enrolled part-time, or by students requiring a maximum of 30 ECTS to complete a bachelor's degree or the course component of an integrated master's degree, a master's degree (2<sup>nd</sup> cycle) or a doctoral degree (3<sup>rd</sup> cycle) is determined by the following formula:

$$25\% \text{ of the tuition fee } \times \left( 1 + 3 \times \frac{\text{no. of ECTS credits to be completed}}{\text{ECTS credits of the relevant year of the study plan}} \right)$$

4. Payment of tuition shall be made in 10 equal instalments until the 10<sup>th</sup> of each month, between the months of October 2021 and July 2022, using one of the payment methods available on the Academic Portal, in the Payments area.
5. Students may choose to pay for tuition in a lump sum, in which case payment is due by 10 October for courses starting in the 1<sup>st</sup> semester, by 10 March for courses starting in the 2<sup>nd</sup> semester, and by the 10<sup>th</sup> of the month of enrolment for doctorates without course or others with the same four starting periods.
6. Grant holders of the Foundation for Science and Technology are an exception to items 4 and 5; their tuition fee is paid annually, in a single instalment, as set forth in the Budget of both entities.
7. For degrees whose tuition decreased compared to 2020/2021, students enrolled in 2020/21 who enrol again in the same degree in 2021/22 will be charged the tuition fee stipulated by this Order.

8. The tuition fee to be paid by students who, in order to complete their dissertation, traineeship report, project assignment or thesis, renew their enrolment in the final year of an integrated Master's degree solely for the corresponding course unit, or re-enrol in a master's (2<sup>nd</sup> cycle) or doctoral degree is proportional to the number of months elapsed until the delivery of the respective dissertation, traineeship report or project assignment, for master's degrees, or thesis, for doctoral degrees, according to the corresponding number of three-month terms.
9. In case an enrolment extending beyond the statutory deadline is authorised where one or more instalments of the tuition payment plans defined in the previous items have not been paid, the amount(s) of the overdue instalment(s) shall be transferred to the instalment due immediately after the tuition invoice date.
10. In the case of inter-institutional study cycles, the Rector shall be responsible for stipulating the tuition fees, in collaboration with the heads of the partner institutions. The amount shall be published in a separate Order.
11. Payment of tuition fees after the established deadlines shall bear interest at the legal rate and shall imply non-recognition of academic acts carried out during the period to which the obligation refers until the debt is settled.
12. The Academic Management Service Unit shall conveniently announce on the Academic Portal where and how payment of tuition fees should be made.

The Rector of the University of Minho,
