Payment must be made in eight instalments according to the payment plan of the degree in question.

- 10.** In any of the aforementioned cases, students may choose to pay the full tuition amount in a single instalment, which shall be done until 31 October for degrees starting on the second semester and until the end of the month of registration for doctoral degrees without programme, except grant holders of the Portuguese Foundation for Science and Technology, whose tuition is paid annually in a single instalment, under the terms set forth in the Budget of both entities.

- 12.** For students enrolled in degrees with tuition higher than that of 2018/2019 and who have been enrolled in the same degree in previous academic years, the amount set for the first enrolment shall apply, unless they are re-enrolling or applying for readmission, in which cases the amounts set in this Order shall apply.
- 13.** In the case of inter-institutional study cycles, the Rector shall be responsible for setting the tuition fee amount together with the representatives of the partner institutions. The amount shall be made public in a separate Order.
- 14.** Tuition amounts of Master's and Doctoral degrees different from those set for the 2019/2020 academic year shall be authorised only in exceptional circumstances. They must comply with the same number of instalments and payment plan presented herein. However, students and tuition-funding entities may opt for different payment modes, provided that the part and time limits herein established are respected.
- 15.** The tuition fee amount to be paid by students who, in order to complete their dissertation or thesis, renew their enrolment in the last year of an integrated Master's degree solely for the course unit "Dissertation", "Traineeship" or "Project", or re-enroll in a Master's or Doctoral degree is proportional to the number of months elapsed until the delivery of the respective dissertation or thesis, according to the corresponding number of three-month terms.
- 16.** In case an enrolment extending beyond the statutory deadline is authorised where one or more instalments of the tuition payment plans defined in the previous items have not been paid, the date(s) of the overdue instalment(s) shall be postponed to the date of the instalment due immediately after the tuition invoice date.
- 17.** Payment of tuition outside the established deadlines shall bear interest at the legal rate and shall entail non-recognition of academic actions completed during the delay period.
- 18.** The Academic Services will conveniently disclose the payment means as well as the respective locations.
- 19.** I hereby revoke Order RT-51/2019, of 1 August.
