The methodology used to produce the final proposal for selection is indicated as following:

- ✓ Respect for the mobility distribution approved by the European Commission and Portuguese National Agency;
- ✓ Balance among partner institutions regarding the number of mobility flows (*incoming* and *outgoing*);
- ✓ Balance among partners so as to achieve a strong impact of the project (a fair distribution among the sending and receiving partners);
- ✓ Evaluation by the host/home institution;
- ✓ Level of priority defined by the candidates in the application (1st, 2nd and 3rd option);

- ✓ Priority defined by the home institution;
- ✓ Whenever candidates presented equivalent quality, priority would be given to the candidates with no previous mobility;
- ✓ Participants with fewer opportunities (whenever candidates presented equivalent quality, priority would be given to participants from disadvantaged groups and/or with fewer opportunities).
